

- The Catalogue of Specialized Services (CSS) is a searchable, online directory of the specialized services provided by physicians and psychologists in Manitoba. It may also include information on specialized services provided by primary care providers.
- Access is available upon request to health-care providers as well as other health-care services support personnel. Visit the Catalogue of Specialized Services page on our website for details on how to request an account. <https://mbtelehealth.ca/services/catalogue-of-specialized-services/>
- Each provider is responsible for maintaining their own profile and updating any changes to the specialized services that they provide. The CSS allows providers the ability to delegate the task of maintaining their profiles to another user such as their assistant.

Perform a Search

- 1** Log in to the website: <https://mbcatalogue.mbaccess.ca>
Enter the provider name or specialty to perform a search.
