

## MBTelehealth Foundations Course Overview

### What is the MBTelehealth Foundations course?

MBTelehealth Foundations is an introduction to telehealth and covers:

- Event types and connection types
- How to schedule a telehealth event and access support during an event
- How to connect and use the videoconference equipment
- Tips for facilitating and participating in a telehealth event
- Benefits of using telehealth

### Who should attend the Foundations Course?

Site contacts or anyone who will be scheduling telehealth events or using the telehealth equipment.

### What can I expect from the session?

- The session is approximately one hour long and is delivered via telehealth
- The session consists of a presentation as well as hands-on practice using the equipment
- Throughout the session, our trainers encourage discussion and questions

### How should I prepare for the session?

- Print off a copy of the Training Guide and bring it with you to the session

[Click here for a copy of the Training Guide](#)

- Review the training tab on the MBTelehealth website. Any questions you have can be asked during the session.

[Click here to access the MBT Training Tab](#)

### Where can I find information about telehealth equipment?

Quick Reference Guides are available on the training tab of our website for all of the MBTelehealth equipment and include instructions for:

- Set Up
- Connecting to other sites
- Presentation display
- Equipment types
- Peripheral devices
- Troubleshooting
