

To connect and display your laptop/PC image:

1. Plug in and turn on your laptop/PC.
2. Connect the laptop/pc to your video conference equipment (see image below).
3. Press the Presentation button to display your laptop image on screen. Press it again to return to the Main Camera view. (You can also use Main Cam and PC Video Source buttons to do the same thing)
4. Press the Selfview button to display your presentation full screen at your site. Press is again to return to normal display

If your laptop does not display your presentation press on your keyboard and select "Duplicate".

You may also need to change your resolution to 1024x768.

The screenshot shows the Windows 'Display' settings window with four options: 'Disconnect Projector', 'Duplicate', 'Extend', and 'Projector only'. The 'Duplicate' option is highlighted with a red box. Above the window, there is a small icon of a monitor with a plus sign and a 'P' key icon.
