

-  **Do not connect your device (workstation, cellphone or iPad) to BellMTS Guest Wifi while at the hospital (other than at these locations: CCMB MacCharles or 700 Elgin); it will break your connection to MS Teams, Connection Dialer (Virtual Visit Provider Portal) and MyMBT Messaging (Cortext).**
- Due to the potential security and privacy risks associated with the TikTok app, you must delete the app from your work or personal device prior to installing and using MyMBT Messaging (Cortext) on that device.**

Home Screen

Type the name(s), title, or location of the person or group you would like to securely message

Number of unread messages from person or group

List of ongoing conversations

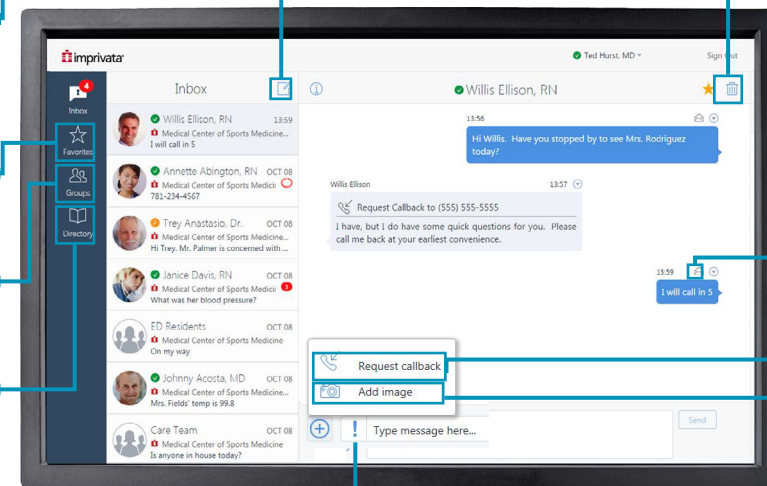

Access settings, access account information, set availability status
Choose from 3 different options:
"Available"
"Busy"
"Do Not Disturb"
*You can add custom details and a timer for your "Busy" or "Do Not Disturb" status

Sign out of MyMBT Messaging

-  **Google Chrome is the preferred browser.**
- You will not receive alerts when new messages are received - you need to be logged in to see the messages.**

Chat Screen

Delete a conversation from your view

Compose message to individuals and groups

Create and manage your favorite colleagues and groups

Access organization and personal groups for mass messaging

View colleagues in your directory

Urgent Alert (!)

View read receipts to see when your colleagues receive and open your messages

Request a callback quickly (except for out of network)
Configure your callback numbers in "Account" under "Edit Numbers"

DO NOT attach images while using the web version.

Cortext can be used from personal or managed devices.

On the web:
