

Home Screen (tap the screen to wake up the system)

Tap to see this device's contact info.

Tap to make a **Call**.

Tap for **Tips** if you need more information.

Tap to open the **Control panel** (camera, selfview, etc...)

Share Screen outside a call (only participants in your room will see).

Tap to connect to a Shared Health hosted Teams event (Video Conference ID required).

Volume controls (Mute button is at bottom of screen during call).

Scroll in lists like a smart phone.

Tap outside the menu to exit.

The Home screen should always be displayed prior to connecting to a site; if not, this may mean that a previous call was not disconnected. If you do not see the Home screen, press **End** to disconnect prior to connecting to your site.

Your Camera Control and Selfview

Before a call

Tap **Control panel** to invoke the camera adjustment menu.

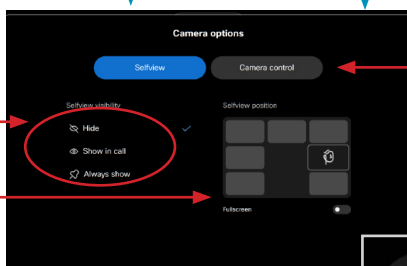

During a call

Tap **Selfview** or **Camera**.

Turn **Selfview** On/Off or make it fullscreen.

Change **Selfview** position.

Tap **Camera control** to adjust your camera using the zoom +/- and direction arrows.

If you have a Telehealth unit that looks like this, the camera is integrated so you can't pan or tilt the camera but you can still zoom in and out.

Make a Call

Site to Site Call

1. Tap **Call**.
2. Tap in the **search/dial** field and enter the 5 digit number using the keypad.
3. Tap **Call** to connect.

Out of Province/Network Calls

1. Tap **Call**.
2. Tap in the **search/dial** field and enter the phone number using the keypad.
3. Tap **Call** to connect.

Multi-Site Call

You will be automatically connected (see note below).

Shared Health hosted Teams event

1. Tap **Microsoft Teams**.
2. Tap in the **search/dial** field and enter the 10 digit Video Conference ID (without spaces).
3. Tap **Join** to connect.

Press **End call** to disconnect at the end of every call (Site to Site, Out of Province or Multi-site).

- Multi-site sessions will be connected automatically at the **scheduled start time**.
- If you are registered for the event and it is already in progress and you are **NOT** connected, you can join by using the connection information shown on the Whiteboard.
- Multi-site sessions will be automatically disconnected at the **scheduled end time**.

Stop/Start Video

Tap to **Stop/start** your video.

During a call you can tap the down arrow in the upper left corner to see the home screen which allows you to access the call controls without interrupting your call.

! For privacy reasons, there may be times when you do not want to share your video feed with the other site. For instance, if you are protecting the privacy of an individual in the room. Your video can be turned off, but you can still see the person at the other end.

Share Presentation During a call

Tap **Share in Call** (menu will display until you tap **Share in Call**, **Dismiss**, or by tapping outside the pop-up menu).

If you tapped **Dismiss** and would like to then share, tap **Share** and then **Share in call**.

Outside a call

Tap **Share** on the home screen and then tap **Share**.

Stop Sharing

Tap **Stop Sharing** when done.

Screen Layout: Presentation

Follow the steps above to **Share Presentation During a call** and then tap the arrow in the top left to minimize the **Share** screen menu.

Tap **Layout**.

Select your layout.

Stack - presenter stacked above the content
Floating - presenter floats over top of content
Side by Side - presenter and content share screen
Focus - content will be shown full screen

Add Favourites

If you have sites and rooms/equipment that you frequently call, you may want to add them as Favorites.

Tap **Recents**.

Tap to mark it as a **Favorite** then return to the **Call** screen OR to change the name tap **Edit nickname**, enter a new name and tap **Save**.

TIP

If you are connected to another piece of equipment that has dual video enabled they are able to see both of your feeds; both your camera view and your presentation and they will have full control over their own layout.
