

You have confirmed that you no longer need an account. You will only be joining Zoom meetings as an attendee going forward. You do not need an account for personal reasons and would like to terminate your account.

1 Sign in to the Zoom web portal. In the navigation menu, click **Account Management** then **Account Profile**.

2 Click **Terminate My Account** and then click **Yes** to confirm. (This will permanently delete your Zoom account.)

3 You will be redirected to the Zoom page and briefly shown a message that your account termination was successful.
